

CHHAYA AMOL SHINDE

FullStack Developer

Email: chhayashinde614@gmail.com | Mobile No: +91-9689479556

PROFESSIONAL SUMMARY

FullStack Developer with 2.7+ years of experience in C#, ASP.NET MVC, .NET Core, Web API, ADO.NET, LINQ and SQL Server, specializing in web development, database management, and API integration. Skilled in JavaScript, jQuery, Bootstrap, and Agile methodologies. Experienced in full-cycle development including analysis, coding, testing, and deployment.

TECHNICAL SKILLS

Programming Language:	C#.
Web Technologies:	HTML, CSS, Bootstrap, jQuery, AJAX, Angular, JavaScript, JSON.
Backend Technologies:	ADO.NET, WinForms, ASP.NET, ASP.NET MVC, .Net Core, Web API, Entity Framework (EF), LINQ.
Database:	Microsoft SQL Server, MySQL.
Development Tools:	Microsoft Visual Studio, MS Visual Studio Code, Git, GitHub, CI/CD Pipeline.
Soft Skills:	Communication, Team Leadership, Team Collaboration.

PROFESSIONAL EXPERIENCE

Full Stack Developer Techsum Technology Pvt.Ltd.	Dec 2023 - Present
Trainee Softwar Developer Techsum Technology Pvt.Ltd.	June 2023 - Nov 2023

RESPONSIBILITIES

- Participated actively in analysis, design, development, research, and implementation of the Software Development Life Cycle (SDLC), object-oriented software systems, and the development of Windows-based, web-based, client/server, and n-tier distributed applications.
- Used SQL Server Management Studio extensively for querying, database modifications, and schema updates.
- Integrated third-party APIs and external services to extend application functionality.
- Worked with Razor syntax for implementing UI in ASP.NET MVC views.
- Used Web Services to enable effective communication between different layers of the application.
- Strong knowledge in identifying problem domains, understanding client requirements, fixing issues, and handling change management and application maintenance.
- Used LINQ to SQL for querying databases and implemented LINQ to Objects and Lambda Expressions.
- Designed class libraries for database connectivity using ADO.NET.
- Designed client-side validations using Data Annotations and JavaScript/jQuery.
- Engineered application architecture using Model-View-Controller (MVC 4.0) pattern to achieve separation of concerns and scalable design.
- Applied OOPS concepts such as inheritance for controller structures and code reusability.
- Developed partial post back validation to manipulate data on web pages using AJAX.
- Acted as escalation point for changes requests and researched client issues, and worked closely with department team leads to prioritize issues and coordinate troubleshooting efforts.

PROJECTS

Tech EduManagement

Role: Team Member

Educational Enterprise Resource Planning (ERP) system designed for training institutes. A full-stack web application that manages student data, staff schedules, course details, and attendance reports.

Technology: C# , ASP.Net MVC, HTML, CSS, jQuery, JSON, JavaScript, Web Api , AJAX, LINQ,SQL,Angular.

- Developed and customized reporting modules for ERP sections such as Student, Attendance, Trainer Leave Report, Student Leave Report, Test, and Group Management and placement activities.
- Designed and implemented data-driven reports using SQL Server queries, stored procedures, and LINQ.
- Performed data validation, testing, and debugging to ensure report accuracy and reliability.
- Involved in development of multiple modules, including Reports module, batch management module, and Group Management module.

VMS TechTrack (Visitor Management System)

Role: Team Lead

This project is comprised of 2 main modules: Admin and Receptionist. Visitor Management System that tracks and manages visitors — such as students, parents, vendors, and guests — entering an organization's premises, ensuring security and accurate record-keeping.

Technology: C# , ASP.Net MVC, HTML, CSS, jQuery, JSON, JavaScript, AJAX, LINQ, SQL, Angular.

- Led a small development team, performing code reviews, task allocation, and mentoring junior developers.
- Developed a Visitor Management System to record and monitor all visitor entries and exits in real time.
- Work closely with clients to understand requirements and deliver solutions
- Translate requirements into technical solutions and implement end-to-end modules.
- Experienced in working with Master Pages and Cascading Style Sheets (CSS) for designing and maintaining consistent UI layouts.

TS Testify

Role: Team Member

Test Management System that enables users to create, organize, schedule, conduct, and evaluate tests digitally. Used by educational institutions, training centers, and companies to manage online assessments efficiently.

Technology: C# , ASP.Net Core, HTML, CSS, Bootstrap, jQuery, JSON, JavaScript, AJAX, MS SQL Server.

- Built dashboards for performance analytics, including score reports, attempts, accuracy, and progress tracking.
- Implemented test creation, scheduling, and result evaluation modules.
- Developed question bank and user management features to support different test types.

StayManager

Role: Team Member

Homestay Management System designed to simplify the operations of homestays, guest houses, and vacation rentals. It manages room availability, bookings, guest information, payments, and reporting.

Technology: C# , WinForms, ADO.NET, MS SQL Server.

- Handled guest inquiries, bookings, check-ins, and check-outs with professional communication.
- Designed and developed email and contact management functionalities for guest communication.
- Created and optimized SQL queries and stored procedures for booking, guest, and report data.

EDUCATION

Master of Computer Application, Amravati University
