| nishakadam2929@gmail.com

PROFESSIONAL SUMMARY

Full Stack .NET Developer with 1.8 years of hands-on experience, including acting as a Team Lead on multiple projects, where I contributed to application architecture, task planning, team coordination, and code reviews. Strong experience in building and maintaining scalable web applications using C#, ASP.NET MVC, ASP.NET Core, and Web API. Proficient in developing responsive user interfaces using Angular, HTML, CSS, JavaScript, and TypeScript. Skilled in SQL Server, RESTful services, and MVC and n-tier architecture. Familiar with Docker for containerizing .NET applications and Azure DevOps for source control, CI/CD pipelines, and release management. Comfortable working in Agile/Scrum environments, resolving production issues, and delivering clean, secure, and reliable solutions aligned with business requirements.

TECHNICAL SKILLS

- **Languages & Frontend:** C#, SQL, HTML, CSS, Bootstrap, JavaScript, jQuery, AJAX, Angular
- **Frameworks & Backend:** ASP.NET, ASP.NET MVC, ASP.NET Core, ASP.NET Web API, Entity Framework, EF Core, ADO.NET
- **Database & Core Concepts:** SQL Server, LINQ, RESTful APIs, OOP, MVC Architecture, Layered Architecture
- **DevOps & Tools:** Azure DevOps (Repos, Boards, CI/CD Pipelines), Docker (Containerization, Dockerfile), Git, GitHub, Visual Studio, Visual Studio Code, Postman, Swagger

PROFESSIONAL EXPERIENCE

LandMark TechEdge Pvt. Ltd. - Software Engineer

June 2024-Present

- Led team of developers across two projects, mentoring members, reviewing code, assigning tasks, and ensuring timely delivery of high-quality solutions.
- Involved in end-to-end SDLC: requirement analysis, design, development, testing, deployment, documentation, code reviews, maintenance, and production support.
- Designed and developed scalable web applications using C#, ASP.NET, MVC 5, and Core, improving performance by 20–25%.
- Built and consumed RESTful APIs and developed Angular applications with reusable components, routing, and data binding, improving UI responsiveness and reducing API response time by 15–20%.
- Created responsive UI pages using HTML, CSS, Bootstrap, JavaScript, jQuery, and AJAX with 100% cross-browser compatibility.
- Applied OOP principles, Dependency Injection, and best coding practices, resulting in maintainable and reusable code; conducted code reviews and enforced coding standards.
- Designed and optimized SQL Server databases with stored procedures, functions, views, triggers, and query optimization techniques, improving database performance by 25–30% and reducing data retrieval time by 20%.
- Worked in Agile/Scrum and leveraged Azure DevOps for CI/CD, Git version control, automated builds, and deployments, improving sprint efficiency, defect resolution, and release cycles.

PROJECT EXPERIANCE

BizPlus CRM - Role: Team Leader

Technologies: ASP.NET Core, Angular, C#, SQL Server, HTML, CSS, Bootstrap, JavaScript, jQuery, Entity Framework, Azure DevOps, Docker

- Managed a team of developers, mentoring members, reviewing code, and ensuring timely delivery of high-quality solutions.
- Developed a multi-module CRM system (Admin, Counsellor, Training Coordinator, Trainer) for enquiries, admissions, training, payments, attendance, and placements.
- Designed and developed the Training Coordinator module, managing batch scheduling and payment processing, improving operational efficiency by 25%.
- Implemented role-based authentication and authorization, ensuring secure access for all users.
- Designed layered architecture with centralized exception handling, validations, and optimized SQL queries, improving database performance by 20–25%.
- Integrated Email/SMS notifications with reusable templates and deployed using Docker & Azure DevOps CI/CD pipelines, enhancing communication and accelerating release cycles.
- Followed best coding practices, unit testing, and code reviews, delivering maintainable and high-quality software.

SmartShop - Role: Team Leader

Technologies: ASP.NET Core Web API, Angular, EF Core, SQL Server, JWT, Azure DevOps

- Led a full-stack e-commerce application development using ASP.NET Core Web API and Angular, ensuring scalable and maintainable architecture
- Implemented JWT-based authentication and role-based authorization to secure application access for Admin and Users
- Applied Repository Pattern with Entity Framework Core and SQL Server to ensure clean data access and optimized database operations
- Developed and maintained core business modules including Product Management, Cart, Orders, and Admin Dashboard
- Managed source code, work items, and CI/CD pipelines using Azure DevOps (YAML) to automate build and deployment processes

Resident Connect - Role: Team Member

Technologies: ASP.NET MVC, C#, SQL Server, HTML5, CSS3, Bootstrap, JavaScript, jQuery, AJAX

- Developed the Accountant module for a society management system, digitizing financial operations
- Built exportable reports (Excel, PDF, CSV) for income vs expense, budgets, and payments
- Automated maintenance billing, due tracking, and payment status, reducing manual errors
- Implemented role-based access control for Admin, Secretary, Accountant, Security, and Members
- Designed a scalable MVC architecture with optimized SQL and validations

BizStay Hive - Role: Team Member

Technologies: ADO.NET, C#, SQL Server

- Developed a web-based property and stay management system for hostels, PGs, and rentals, improving operational efficiency by 30%.
- Worked on Admin module, handling Employee Management: managing employee information, leave, and attendance.
- Implemented tenant onboarding, room allocation, rent management, and payment tracking.
- Designed role-based access control for Admin and Receptionist modules, ensuring secure access.
- Automated Email and SMS notifications for rent reminders, improving communication and timely payments.

EDUCATION

Bachelor of Computer Science (BCS)

Savitribai Phule Pune University
