PROFESSIONAL SUMMARY

I am a dedicated and innovative Full Stack Developer with a solid foundation in HTML, CSS, and JavaScript, bolstered by hands-on experience using modern frameworks such as React, Express.js, and MongoDB. I am adept at creating responsive, visually appealing user interfaces while developing robust backend solutions to improve user experiences. My strong problem-solving skills and attention to detail, alongside my teamwork abilities, make me a valuable asset to any development project.

EDUCATION

Master of Computer Applications (Computer Science)	2022 - 2024
Institute of Engineering Technology, Khandari, Agra , Uttar Pradesh	Grade: 7.0/10.0
Bachelor of Engineering (Artificial intelligence)	2019 - 2022
Dayalbagh Educational Institute Deemed university in Agra, Uttar Pradesh	Grade: 7.0/10.0
Intermediate (Class XII)	2016 - 2017
S.V.M Kamla Nagar. Agra	Grade: 72.0%
Matriculation (Class X)	2014 - 2015
S.V.M Kamla Nagar ,Agra	Grade: 6.8/10.0

EXPERIENCE

Full Stack Developer	November 2024 - Present
Teachboat India	<i>Remote</i>
- Designed and developed responsive, user-friendly interfaces using React.js ensuring seamless experiences across devices. - Enhanced code reusability by following the DRY principle, while maintaining existing project workflows. - Integrated and standardized APIs across platforms, optimizing data flow and application performance. - Collaborated with UI/UX designers, backend developers, and QA testers to deliver scalable applications. - Implemented advanced features such as real-time collaboration, dynamic components, and customizable boosting functionality and user engagement. - Utilized server-side rendering (SSR) with Node.js and MongoDB to enhance SEO and improve initial page load performance for data-heavy applications.	

Key Skills: React.js, JavaScript, Redux, HTML5, CSS (Sass), Node.js, MongoDB

INTERNSHIPS

Web Development Internship	September 2024 - November 2024
TECHOCTANET SERVICES PVT LTD	<i>Work From Home (Remote)</i>
- Collaborate with the development team to design, build, and maintain websites and web applications. - Assist in coding and testing web features using HTML, CSS, JavaScript, and modern frameworks. - Help in integrating third-party APIs and ensuring proper functionality. - Optimize websites for performance, speed, and scalability.	
Software Development Intern	September 2024 - September 2024
PRODIGY INFOTECH	<i>Remote</i>
- Collaborate with the development team to design, implement, and test software applications. - Write clean, efficient, and maintainable code following best practices. - Assist in troubleshooting, debugging, and optimizing software performance.	

Web Development	August 2024 - November 2024
Zidio Development	<i>Remote</i>
Web Development	

PROJECTS

Learning Management System (LMS), ([Github](#)) ([Demo](#))

April 2024

Project Overview:

The Learning Management System (LMS) is a comprehensive web application developed using React.js, designed to facilitate the creation, management, and delivery of educational courses. The LMS aims to enhance the learning experience by providing a user-friendly interface for students, instructors, and administrators. The project incorporates modern web development practices, including state management with Redux, authentication and authorization mechanisms, responsive design, and integration with backend services.

Simple Website Using React Js, ([Github](#)) ([Demo](#))

October 2022

- *A basic website built using React.js.*
- Developed a simple website using React.js with responsive UI design.
- Implemented routing, folder structure, and icons with fontawesome-free.

Netflix Clone, ([Github](#)) ([Demo](#))

October 2022

- **A front end clone of the popular Netflix platform.**
- Created a simplified front end clone of Netflix.
- Implemented a responsive UI design and utilized The MovieDB API to search for movies.

CERTIFICATIONS

Full Stack Web Development, Pw Skills (Physics Wallah)

April 2023

MERN Stack Development

Newton School Coding Bootcamp, Newton School

February 2022

Participated in various coding competitions held by Newton School

Worked on various projects

SKILLS

Computer Languages: TypeScript, Java, Python, JavaScript, CSS, HTML

Software Packages: Mongo DB, React, Express JS, NodeJS

Additional Courses: Data Structure

EXTRA-CURRICULAR ACTIVITIES

Co Curricular Activites

Actively participated in various coding competitions hosted by Newton School

Actively solving coding problems on Leetcode and GFG portal
